Vision

To be a respected telecom/Infrastructure solutions company focused on cutting edge technologies, delivering world class quality and enhanced speed to market

Mission

We are committed to the establishment of procedures to ensure the promotion, development and maintenance of the highest standards of honesty, integrity and ethical conduct of the addressees in the performance of their daily duties and responsibilities.

Our Values

1

Our first job is to understand our customers' objectives, then offer them solution and Services to help satisfy those needs so they can build and maintain their network successfully. If we do that right, then all sorts of good things happen for customers, team members and their customers.

2

We take responsibility for **QUALITY**. Quality is the foundation on which IPML, must "build" its future. Each of us at IPML is responsible for the quality of whatever we do.

3

We put health and safety first. We take the health, safety and security of our employees, contractors and customers very seriously. The best solutions come from working together with both colleagues and customers. We openly communicate up, down, and across the organization. We value the diversity of our workforce.

EHS Policy

Indus Power Myanmar Ltd is committed to being a clean, sustainable manufacturer and providing a safe work environment for all employees, contractors and visitors. Our EHS Management System fosters a high-performance culture where EHS awareness, involvement and accountability are intrinsic to all business activities.

EHS

- Integrate EHS with all business activities
- Focus on our goal of zero workplace injuries and EHS incidents
- Meet or exceed all EHS regulatory standards

EHS

- Eliminate pollution at the source whenever feasible. Where it cannot be eliminated, manage pollution to eliminate environmental concern.

EHS

- Foster a culture of EHS awareness, involvement, empowerment and accountability among employees, both at work and at home.
- Report, investigate and analyze all EHS incidents with a focus on preventing reoccurrence.

EHS

- Continual improvement of EHS Management Systems through assessments, actionable planning and Implementation of best practices.
- Train employees to identify, understand and respect all EHS aspects and hazards, and reduce impacts and risks in their work environment.
